Balustrade Solutions is an Isle of Man company that provides bespoke glass products and stainless steel balustrades and handrails. Our proprietor has 25 years of experience and is able to pass on the benefit of his wealth of experience and expertise to you. Whether for public buildings, commercial properties or private homes, we offer top quality products and services. After our initial consultation, where you will receive our recommendations regarding what will work best for you and your property, we will tailor make our glass and stainless steel products specially for you. Once installed by our professional fitting team we will provide a first class aftercare service to ensure you will receive the level of service you require. As well as custom made glass products and durable stainless steel balustrades, we can make and install glass inlays, glass doors and glass walls. We can also provide frameless structural glass work to allow properties to make the most of the view. We offer a full design service to suit each individual space, so give us a call for an appointment now on 01624 837494. A glass and stainless steel balustrade really is the best of both worlds. It allows you to fully enjoy the views offered by your property, while at the same time giving protection from the wind. A balustrade can improve your home balcony or crown public buildings and

commercial or office premises Bespoke glass solutions can be suitable for a wide variety of applications. Most commonly these days, glass doors and walls are used to open up the interior spaces of larger buildings by allowing light to pass through and give a more airy feel. Glass doors in public buildings are used to present a welcoming aspect to visitors. Balustrade Solutions can produce stainless steel handrails and wires to fit wherever they are needed. All our stainless steel and glass work is made to measure to fit the clients specifications. Whether interior or exterior, we can design and fit something for you. Give us a call today on 01624 837494 to discover more.
