Synapse360 are award winning experts who deliver agile, secure and reliable IT

infrastructure solutions, whether in the cloud, on-premise, or as a hybrid

sSYNAPSE360 is changing the way organisations consume IT, our Isle of Man based

cloud platform provides a range of effective and secure services designed for the

needs of the Island's businesses.Our cloud hosted and delivered services provide:
-The entire IT infrastructure needed to run any scale of organisation including email,

file sharing, database and collaboration applications.
-Online desktops provided with the latest editions of Microsoft Office.
-Online cloud drives to store, exchange and protect critical documents including self-

service revision and recovery control.
-Ability to access all systems, applications and data from anywhere, anytime and on

any device.Full redundancy including dual data centre hosting and full back up

management.
-Recovery as a Service integrated with business continuity planning capability.
-Online backup, holistic backup solution from server to workstation.The Synapse360

cloud platform enables organisations to focus on their users, applications and

customers allowing Synapse360 to take care of the IT. With 17 years' experience

providing and supporting infrastructure for many of the Island's businesses, we

have the capability, insight and resource to enable business growth through

innovative and reliable technology solutions.Trusted to provide 'as a service'

solutions to banking and financial institutions for over 10 years our cloud platform

provides:* 10 years' experience with policy and controls within multi-tenant security
* 24*7 management & monitoring of the platform and client systems
* ISO20000 certification
* Secure Isle of man based Data Centres
* Highest level of industry acknowledgement of our ability to deliver with accolades

such as:
– Cisco Data Centre Partner of the Year (Scotland)
– EMC Premier Partner of the Year
– EMC Innovation Partner of the Year for the UK & IrelandOur technology partners

include:
– Dell EMC – Platinum Partner
– VMware – Premier Solutions Partner
– Cisco – Premier Partner
– Cisco Meraki – Elevate Partner
– Zerto – Alliance Partner
– Citrix – Silver Solutions Advisor
– F5 – Unity Partner
– Microsoft – Silver Market Solutions Providern February 2018, Synapse360's Dell

EMC's partner status was raised to Platinum level. We are one of only a handful of

UK partners to achieve this partnership tier.Recognition by Dell EMC will give you

the confidence that Synapse360 have proven, professional customer focussed

processes in place, from initial meeting to on-going support, and certifications that

meet or exceed stringent criteria. The award also acknowledges Synapse360's track

record in leveraging successful customer solutions using Dell EMC

technology.Alongside data centre and cloud infrastructure solutions built on Dell

EMC storage and compute, we can offer the full range of products in the Dell

portfolio, from laptops to Dell Life-Cycle Management solutions.Purchasing Dell EMC

from Synapse360 means the same cost or less than going direct, but with our

extensive knowledge, service and support wrap-arounds, including the

management of licenses and renewals.WHY SYNAPSE360
Synapse360 has over 19 years' experience in infrastructure design and deployment.

We are one the UK's leading providers of converged infrastructure solutions and
