Phone: 07802 865930 | 07624 865930

All you need to do for a Temple Spa class is get a small group of friends together, pour a nice glass of something chilled and leave the rest to me. It's like a 2 hour vacation from life, where you can enjoy a moment of calm and remember to take time for yourself and love who you are.

There are different classes to choose from but most people start with the Skin

Therapy class. I will make your space look, feel and smell like a spa. You will have your skin analysed, learn how to give yourself a facial, have some quality 'me' time and have the opportunity to treat yourself in my pop up Spa Boutique. We do not test on animals or hire others to do so on our behalf. My aim is to improve the self

esteem and wellbeing of everyone I come into contact with, and to this end, we will

not exploit any person or animal in the creation and management of our products. We seek to be a people-oriented and down to earth company, with qualities that are refreshing and rare to find in this industry. If your experience of us is in conflict with these stated ideals, please do let me know.
