As the Isle of Man's leading supplier of office interiors and storage solutions, Descon has partnered countless businesses of all types in creating, developing or refurbishing office space, warehouse and retail premises. For decades, we've been creating stylish and practical working environments for companies both large and small. Descon's philosophy is simple: work with space and use great products. The results are always pleasing to the eye and practical by maximising storage to leave a clean and attractive working environment. From planning and design through to installation, Descon's years of experience brings to the client the widest range of office furniture, partitioning, storage solutions, equipment and accessories from the world's leading manufacturers to provide a seamless, one-stop supply and installation service. Whatever your requirement, from a comprehensive, multi-functional office fit out for hundreds of members of staff, through to the supply of single items of furniture, Descon always ensure you make the most of your space. Descon have knowledge and experience in assisting all types of business - whether it involves moving to new premises or reconfiguring an existing work environment. You will be helped through all aspects of the planning phase, including a complete CAD design service to optimise your available space. In this modern age of GDPR, perhaps safe and secure storage is one of the key elements for successful office design. Descon provides effective,

practical storage from simple shelving to sliding rack storage, from small parts storage to pallet racking. Descon has been designing and installing mezzanine floors for many years, helping businesses of all types across the island create extra space and boost productivity. Every steel structure installation is bespoke to your specific requirements and will always conform to building regulation standards. Whether the floor provides additional warehouse space or a much needed extension to existing office premises, Descon have the knowledge and experience to advise on the style, layout and practicality of your floor area. From estimating through to design, from installation to occupation, as the Isle of Man's largest and most dependable project management specialists, Descon make sure your finished work environment is tailored to exactly how you would like it to be, for the benefit of you and your staff.
