A range of 5 models to suit your needs. Great for small businesses, voluntary organisations, stallholders, and sales forces. From Lesley H, one of my customers, who has stalls at events and several customers locally and further afield:: “Get a card machine. I have waited years and have no idea why i waited so long. I got mine through Diana Morgan. The cost per transaction is so minimal compared to benefit - I would wholly recommend. It’s also useful to be able to send payment links to customers who have ordered direct from you and want to pay by card... Saves the cash issue. Takes 2 days for money to land in your bank. As you can tell i wholeheartedly recommend!”
