C.UK is a local telecoms and IT solutions company that provides services to businesses across the South of England. Inaugurated in 1990, we have established a reputation as a supplier of quality and integrity, serving businesses in our area. We design solutions by listening to our customers and give honest, expert advice to offer the best solutions for your business. We supply market-leading technologies including Mitel, Microsoft, HP, Avast, Ruckus, BT Wholesale and Gamma Telecom. Our comprehensive product range and skill set enable our customers to have one focal point of contact for all of their Telecoms and IT, simplifying support and consolidating services into one easy bill. We plan, manage and execute installations thoroughly, effectively and efficiently using our own accredited engineers.
